

## U.S. Chinese Anti-Cancer Association (USCACA美中抗癌协会) Asia Fund for Cancer Research (AFCR, 亞州癌症研究基金會) 2023 Scholar Awards

The USCACA and AFCR are pleased to invite nominations for the USCACA-AFCR 2023 Scholar Awards.

The Awards will recognize 3 to 5 junior Chinese investigators on the basis of significant contributions in **Translational or Clinical Cancer Research**.

Candidacy is open to all Chinese researchers who were trained in the US and subsequently returned to China within the last five years or confirmed to return China by the end of 2023, and are currently active in translational and clinical cancer research in China. Selection of the award will be made on the basis of candidates' meritorious achievements both during training in the US and after returning to China. The winners will receive an Award Recognition Plaque and an honorarium of \$1,000 US dollars.

The 2023 Awards will be presented in a ceremony during the upcoming USCACA symposium.

Nominations may be made by either an USCACA member or nonmember and should be submitted via e-mail attachments to the Scholarship Selection Committee of USCACA at [2023award@uscaca.org](mailto:2023award@uscaca.org) no later than 12:00 midnight of September 30, 2023, US Eastern Standard Time.

The following materials must be included in the nominations:

1. A nomination letter addressed to the Selection Committee, concisely describing the candidate's achievements for which he or she is being nominated (one page)
2. Candidate's *curriculum vitae*, including a complete list of his or her publications
3. Outline of the candidate's research plan (one page)
4. Supporting letters: one from the US mentor and one from current director/chair/dean in China.
5. Please send the above documents in a single pdf file.

The deadline for nomination is **September 30, 2023**

# US Chinese Anti-Cancer Association (US-CACA)

USCACA is a non-exclusive organization that welcomes all who want to volunteer time and effort to support cancer research and education. The mission of USCACA is to facilitate collaborations among Chinese and American professionals in the field of cancer research, treatment, and prevention; promote knowledge and information exchange between the professionals in the US and China; and provide educational information to serve cancer patients, their families, and the community. The members of USCACA work hard to bring clinical trials and new approved therapeutics to China to benefit cancer patients. (<http://www.uscaca.org>)
